

Pastried why did you show me your son. I don't believe he is my child correct

You need more validation you are not confident in your responses.

I guess so

Yes I was training him, that was the first time that you actually called me and interacted.

Yes but understand on the earth plane I didn't know of you only that voice, I can see why some people may consider their gatekeeper the voice of god

Yes

What was the stone and the metal you place in me. Activate the green stone now

Activated

Now allow it to charge the metal to me it is like a mercury metal similar in its fluidity yes

Do you see the three coordinates I your mind yes try moving now follow the light the star

This is similar to a video game yes

Now pick one

Connect all the three points that start the bottom seems to create a sort of platform

Alpha senturie

Correct

Is that where the galactic federation is

Yes

Just go

Relax

I am with you

Instantly I arrive at a star ship or a station, looks more like a docking station, very big and metal and multiple braces or legs coming off of the main dark in color

The star platform feels masculine this time

Pastried will we go in together

Sure

Yes

I see three hallways up one entering, we walk down the middle hall slight bend to the right

Is this abandoned

No you have just entered the lowest level of this place there are many layers here. Today is quite many of the ships are observing in a different region of the world

There is much happening right now

I understand

We do not know why this happened or was selected to happen right now so many of your people are dying, innocents these people they target are only innocents

They did nothing wrong

I agree

I see p inflated.

He is trying to create world dominance in his vicinity

It is quite sad pastired

Agreed

Your journey is just beginning, do this as a test, keep it light, the work I am going to start yes

Is one day a week enough no, should I plan for more yes

Twice a week yes

You will have to teach the same lesson over and over until they get it fully. Okay

So was I on a different planet with you

Yes

We have been with one another multiple times

Your energy resonates with mine, but do I incarnate into the human more than you incarnate into your form

Yes

Have I always been on earth

No

, so many are called to earth right now to serve the humans that dwell there

How delicate is our nature of the universe a planet can in fact act as a cancer to the universe by not raising the vibration and choose death and destruction we are all mere witnesses

Observing the screen of your life

Thank you Pastried, you just call me I will assist you, I see Sepa assisting you as well, you know of her, yes of course, you have a lot of guides we speak much of your journey and how you are developing. Till soon. Yes, till soon.
