

So when I just did the research for Lumerians I see you were a race here on earth centuries ago, are you still here on earth, for I saw through my mind you were outside of the earth system above me. You too had mentioned this: direct connection linking up, direct link synch, my child, I beg to ask the question, we are all around you we have never left we are existing in the same space as you are through the energetic lines we are touching one another, we are here for you as I stated earlier, we are yes within the earth and above you cannot see us with your third dimensional eye.

But are you and I speaking in the present space time, yes dear one. You see we had to have the capacity to live in both planes, many of your kind have done so to

Nonsense to the four arms we are very human looking like you where you cannot really tell the difference, do you think I deceive you

No not at all, but when you said Lumerians and I looked it up,

Dear one so much information is missing from your information that is why we channel here and now, the pieces have been edited deleted from your program, the place holders do not want the human to awaken for their own agenda, which is like poison to the mind, keep you mind clear and remember the unlimitedness of all that is, we are all connected in the here and now.

Do you live under the earth, no

We lived on your planet for some time now we live in a different system of time and space, we evolved as a species and still support the growth and knowledge that is needed for you each and every one of you. That is why we came to you today we are here as a guidance for you on your journey through this exploration.

You will only find the pieces here, through channeling and as your begin to share your information with others, the puzzle will solidify

Remember here who controls the information on the net, they are interestingly enough trying to catch you within the net and we are please that you came back for additional information, here you will find an overabundance of information.

Thank you for the clarification, always my dear always. For now relax into that pyramid shape, you see, yes, I do, it is beautiful!
